IOM Summit on Integrative Medicine

February 25, 2009

INTEGRATIVE
MEDICINE
CENTER
AT GRIFFIN HOSPITAL

More than either/or:

CURE construct: *Clinical Utility of Research Evidence*. Adapted from: Katz DL, Ali A. Preventive Medicine, Integrative Medicine & The Health Of The Public. National Academies of Science. 2/09

Effectiveness	Safety	Support	Alternatives	Confluence with Patient Preference	<i>Overall Rank</i>
High	High	Strong	Absent	Yes	High
					
Low	Low	Weak	Numerous	No	Low

Integration, across the prevention spectrum-

- n Leavell's levels and integrative medicine
 - q Primary prevention
 - q Secondary prevention
 - q Tertiary prevention

The case made by cases...

Quit your belly achin'

- n A precautionary tale of adhesions, & adherence to dogma...

Nausea, *ad nauseum*...

- n How symptom-based care can set us free.

Thank you.
